

Academic Research Journal of Science and Technology (ARJST)

Open Access

Our Commitment to Universal Knowledge

The Academic Research Journal of Science and Technology (ARJST) is fundamentally committed to the wide and equitable dissemination of scientific knowledge. We firmly believe that research findings, particularly in fields critical to global advancement, should be universally accessible without financial or institutional barriers.

We adhere strictly to the principles of **Open Access (OA)**, ensuring that all articles published in ARJST are immediately and permanently made available to the global community—including researchers, educators, policymakers, and the public.

The ARJST Open Access Model (Free to Read)

ARJST publishes content under a **Gold Open Access** model, which means all peer-reviewed research is made digitally available immediately upon publication.

For all readers, this guarantees:

- **Immediate Access:** All articles are available online the moment they are published.
 - **Worldwide Availability:** Content is accessible globally, without location restrictions.
 - **No Paywalls:** There are absolutely no subscription fees, download charges, or institutional access requirements.
 - **Permitted Use:** Readers are free to download, copy, distribute, print, and search articles, provided the original authorship and source are properly cited.
-

No-Fee Open Access Policy (Free to Publish)

A cornerstone of our commitment to equity in research is our **no-fee open-access policy**.

The Academic Research Journal of Science and Technology operates on a sustainable model that eliminates financial barriers for authors. This ensures that the decision to publish with ARJST is based solely on the scientific merit and quality of the research, not the author's ability to pay.

ARJST does not charge:

Fee Type	Policy
Article Processing Charges (APCs)	Zero cost for accepted manuscripts.
Submission Fees	Zero cost to submit a manuscript for peer review.
Page Charges or Color Charges	Zero cost for publication features.

This policy supports researchers worldwide, particularly those from institutions or regions with limited funding, maximizing the diversity and breadth of research published in ARJST.

Licensing and Copyright

To ensure maximum distribution and reuse, all articles published in ARJST are typically licensed under a **Creative Commons Attribution (CC BY)** license (unless otherwise noted).

Under the CC BY license, authors retain the copyright to their work, but grant third parties the right to use, reproduce, modify, and build upon the work non-commercially and commercially, provided appropriate credit is given to the original author(s) and the journal.

Benefits of Publishing Open Access with ARJST

Benefit for Authors	Benefit for the Research Community
Higher Visibility	Accelerates the pace of scientific discovery.
Increased Impact	Maximizes citations and global reach.
Retention of Copyright	Authors retain full ownership rights.
Zero Publication Cost	Removes financial barriers for researchers.
Compliance	Meets growing institutional and funder mandates for OA publication.

Ready to Share Your Research?

We invite you to submit your high-quality scientific and technological research to ARJST and contribute to the rapidly expanding body of universally accessible knowledge.
